*Parents education level was included as an entry item on the States new Common Application in 1998. Most of the freshmen who applied at TAMU for Fall 1998 didn't use the Common Application so reliable parents education level data is not available for that year. The majority of the student applications for Fall 1999 were from the on-line Common Application so the data is available. However, the high numbers for applied, admitted and enrolled for Fall 1999 indicate that applicants may not have entered this item correctly.
