Definitions

**Average Hours:** Represents the average number of hours taken to complete a degree.

**College:** Specifies the college to which a student’s major is assigned.

**Ethnicity:** Indicates the race of the student. Students that are classified as “International” are not citizens of the United States. The “Unknown” classification is reserved for students that have not indicated a racial/ethnic designation.

**First Generation Graduate:** Identifies a student whose parents have not graduated from college with a bachelors or higher degree.

**Fiscal Year:** FY2004 includes Fall 2003, Spring 2004 and Summer 2004 session.

**Gender:** Identifies a student as either “male” or “female”.

**Median Hours:** Represents the middle value in a distribution of the total hours taken to complete a degree.

**Terms:** Is the total number of semesters to complete a degree, which includes fall, spring and summer (summer is counted as one term per calendar year regardless of how many summer sessions attended).

**Note:** The data sets provided in this report reflect data submitted to the Texas Higher Education Coordinating Board. There may be some idiosyncrasies. For example, the Professional Program in Accounting (PPA) program in the College of Business provides the opportunity for a student to obtain a masters degree while completing a bachelor’s degree. Another example is a student can be enrolled as a Masters candidate obtains the number of credits needed for an additional bachelor degree without enrolling for that degree. Therefore the number of terms for the degree in each of these examples could be as few as 0 to 3, and the number of hours would also appear small. When calculating the number of terms and number of total hours taken for a particular degree. In order to provide appropriate representation, The Degree Profile was completed as follows:

1. The “Number of Terms” charts on pages 13-15 and 69-86 represent all students.
2. The “Number of Terms for an Undergraduate (Entering as a Freshman) to Obtain a Degree” excludes students with less than 4 terms so as not to skew the data set.
3. The “Number of Terms for a Transfer Student to Obtain a Degree” excludes all students who transferred with less than two terms.
4. The “Number of Terms a Readmitted Student to Obtain a Degree” represents all students who are enrolled at TAMU, that leave for at least one long term, and are then readmitted. The number of terms refers to the total terms actually attended at TAMU.
5. The “Average and Median Hours to Obtain a Bachelors Degree by College and Major” excludes students that accumulate less than 100 student credit hours at TAMU.
