Federally Financed	\$228,363	\$206,242	\$212,923

Energy Conservation

TAMU has improved energy efficiency by 29.2% from FY02 - FY08, measured in mBtu³ consumption per gross square foot (GSF). This improvement in energy efficiency has cost avoided \$71.4 million over this six-year period, and also resulted in a 21.5% reduction of carbon dioxide emissions per GSF due to reduced natural gas and electricity consumption during the same period of time.

³Btus are measurement of energy consumption. mBtu stands for one thousand Btus.

Notes:

¹Represents an estimated total cost of attendance for Fall and Spring semesters based on total tuition and required fees, room and board, books and supplies, transportation, and personal expense. The \$ amount is based on 15 hours for Fall and Spring semesters.

²As reported to the National Science Foundation. Expenditure represent Texas A&M University College Station including agencies. The Health Science Center is not included.

³Instructional faculty reported to the Texas Higher Education Coordinating Board, excluding Graduate Teaching Assistants.

⁴ORG = organized lectures, labs and seminars

OTHER = research and directed studies

⁵Top 10% can be calculated using two methods: 1. Students who were top 10% in a Texas high school class and who were admitted automatically based on their class rank. 2. Students who were top 10% in any high school class (not just Texas) and who may or may not have been admitted automatically based on their class rank. Both methods are provided here.
